# Subject Index*

A

**Acupuncture**
Controlled trial of real and simulated acupuncture in management of chronic asthma (Tashkin DP et al), 855

**Adenosine monophosphate**
Elevated leukocyte phosphodiesterase as basis for depressed cyclic adenosine monophosphate responses in Basenji greyhound dog model of asthma (Chan SC et al), 148
Elevated umbilical cord blood leukocyte cyclic adenosine monophosphate-phosphodiesterase activity in children with atopic parents, 5 (Abst.)

**Aeroallergen**
Immunochemical approach to indoor aeroallergen quantitation with new volumetric air sampler: studies with mite, roach, cat, mouse, and guinea pig antigens (Swanson MC et al), 724

**Aerosols**
Airway reactivity to sulfate and sulfuric acid aerosols in normal and asthmatic subjects, 19 (Abst.)
Effect of dosing schedule on efficacy of beclomethasone diproprionate aerosol in chronic asthma, 11 (Abst.)
Effect of inspiratory flow rate regulation on nebulizer output and on human airway response to methacholine aerosol (Laube BL et al), 708
Quantitative assays of pharmacologic aerosols used in studying asthma (Messina MS et al), 605

**Agar**
Report of Kaufman et al. on relationship between agar gel double-diffusion and ELISA results for *Aspergillus fumigatus* IgG antibody (Shale DJ and Faux JA), 128 (Correspondence)

**Agonists**
Clinical use of β-adrenergic agonists (McFadden ER Jr), 352

**Air sampler**
Immunochemical approach to indoor aeroallergen quantitation with new volumetric air sampler: studies with mite, roach, cat, mouse, and guinea pig antigens (Swanson MC et al), 724

**Airway**
Airway reactivity to sulfate and sulfuric acid aerosols in normal and asthmatic subjects, 19 (Abst.)
Anti-inflammatory drug (BW755C) inhibits airway hyperresponsiveness induced by ozone in dogs (Fabbri LM et al), 162
Effect of inhaled hexamethonium bromide and atropine sulphate on airway responsiveness to histamine (O'Byrne PM et al), 97
Effect of inspiratory flow rate regulation on nebulizer output and on human airway response to methacholine aerosol (Laube BL et al), 708
Mediators, airway responsiveness, and asthma (Hargreave FE et al), 272
New perspectives on putative role of eicosanoids in airway hyperresponsiveness (Robinson C and Holgate ST), 140 (Editorial)

**Albumin**
Characterization of antigen in acute anaphylactic dialysis reactions: ethylene oxide–altered human serum albumin (Grammer LC et al), 670
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511
Investigation of possible immunologic reactions to human serum albumin used as stabilizer in allergy extracts (Brown JS et al), 808

**Albuterol**
Albuterol syrup in treatment of asthma (Pierson WE et al), 228

**Allergen**
Clemastine and ketotifen in allergen-induced bronchoconstriction: is current evidence conflicting? (Popa V), 642 (Correspondence)
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563
Modified forms of allergen immunotherapy (Grammer LC et al), 397
Occupational allergy to common house fly *(Musca domestica)*: use of immunologic response to identify atmospheric allergen (Tee RD et al), 826
Purification and partial characterization of two major allergens from house dust mite *Dermatophagoides pteronyssinus* (Lind P), 753
Where does cat allergen 1 come from? (Bartholomé K et al), 503

**Allergenicity**
Allergenicity, immunogenicity, and safety of immunotherapy with various molecular weight ranges of polymerized ragweed (Grammer LC et al), 195
Cross allergenicity among grasses determined by tissue threshold changes (Leavengood DC et al), 789
Evaluation of papain/chymopapain cross allergenicity (Sagona MA et al), 776
Lack of cross allergenicity between mezlocillin and other semisynthetic penicillins, 20 (Abst.)

**Allergy**
Can allergy meet challenge of change? (Fink JN), 131 (Presidential address)
Delayed-type allergy to spices, 20 (Abst.)
Eustachian tube obstruction and allergy: role in otitis media with effusion? (Fireman P), 137 (Editorial)
House dust mite allergies in military personnel, 6 (Abst.)
Investigation of possible immunologic reactions to human serum albumin used as stabilizer in allergy extracts (Brown JS et al), 808
Masked type 1 wheat allergy—relation to exercise-induced anaphylaxis, 16 (Abst.)
Occupational allergy to common house fly *(Musca domestica)*: use of immunologic response to identify atmospheric allergen (Tee RD et al), 826
Ocular allergy (Friedlaender MH), 645 (CME article)
Penicillin allergy and desensitization in serious infections during pregnancy, 16 (Abst.)
What we do and do not know about mold allergy and asthma (Reed CE), 773

***Alternaria***
Role of *Alternaria* and *Penicillium* spores in pathogenesis of asthma (Licorish K et al), 819

**Aminocaproic acid**
Stabilizing effect of epsilon-aminocaproic acid on allergenic extracts (Van Hoeyveld EM and Stevens EAM), 543

**Amniotic fluid**
Amniotic fluid activates complement: role in amniotic fluid embolism syndrome? 4 (Abst.)

**Anaphylactic reactions**
Allergic reactions to streptokinase consistent with anaphylactic or antigen-antibody complex-mediated damage (McGrath KG et al), 453
Anaphylactic reactions to suxamethonium prevention of mediator release by choline (Vervloet D et al), 222
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511

**Anaphylatoxin**
Complement proteins and C3 anaphylatoxin in tears of patients with conjunctivitis (Ballow M et al), 473

*July, pp. 1-130; August (Part I), pp. 131-248; August (Part II), pp. 249-408; September, pp. 409-526; October, pp. 527-644; November, pp. 645-762; December, pp. 763-894.

**Anaphylaxis**
Anaphylaxis (Sheffer AL), 245 (Erratum)
Effect of anaphylaxis on conjunctival goblet cells (Allansmith MR et al), 200
Failure of sulfites to produce clinical responses in patients with systemic mastocytosis or recurrent anaphylaxis: results of single-blind study (Meggs WJ et al), 840
Masked type 1 wheat allergy—relation to exercise-induced anaphylaxis, 16 (Abst.)
Progesterone sensitivity as cause of recurrent anaphylaxis, 14 (Abst.)
Serum sickness triggered by anaphylaxis: complication of immunotherapy (Umetsu DT et al), 713
Transport abnormalities during intestinal anaphylaxis in rat: effect of antiallergic agents (Perdue MH and Gall DG), 498

**Angioedema**
Allergic urticaria and hereditary angioedema: independent association in same patient, 12 (Abst.)

**Antagonists**
Calcium antagonists and asthma (Middleton E Jr), 341
Effect of histamine receptor antagonists on specific and nonspecific suppression of experimental contact sensitivity (Mekori YA et al), 90
Mediator release in local heat urticaria: protection with combined $H_1$ and $H_2$ antagonists (Irwin RB et al), 35

**Antibody**
Acquired C1-inhibitor deficiency associated with anti-idiotypic antibody to monoclonal immunoglobulins, 11 (Abst.)
Allergic reactions to streptokinase consistent with anaphylactic or antigen-antibody complex-mediated damage (McGrath KG et al), 453
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46
Immunoglobulin E antibodies against coriander and other spices (van Toorenenbergen AW and Dieges PH), 477
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182
Natural exposure and serum antibodies to house dust mite of mite-allergic children with asthma in Atlanta (Smith TF et al), 782
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
Report of Kaufman et al. on the relationship between agar gel double-diffusion and ELISA results for *Aspergillus fumigatus* IgG antibody (Shale DJ and Faux JA), 128 (Correspondence)
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537

**Antigen**
Allergic reactions to streptokinase consistent with anaphylactic or antigen-antibody complex-mediated damage (McGrath KG et al), 453
Characterization of antigen in acute anaphylactic dialysis reactions: ethylene oxide–altered human serum albumin (Grammer LC et al), 670
Congenital X-linked hypogammaglobulinemia and asymptomatic hepatitis B antigen carrier state (Wray BB et al), 507
HLA A, B, C, and DR antigens in individuals with sensitivity to cobalt, 15 (Abst.)
Immunochemical approach to indoor aeroallergen quantitation with new volumetric air sampler: studies with mite, roach, cat, mouse, and guinea pig antigens (Swanson MC et al), 724
Prolonged bronchial obstruction after single antigen challenge in ragweed asthma (Wanner A et al), 177

**Antihistamines**
Skin test suppression by antihistamines and development of subsensitivity (Long WF et al), 113

**Antihistaminic drugs**
Astemizole and other $H_1$-antihistaminic drug treatment of asthma (Holgate ST et al), 375
Newer antihistaminic agents (Norman PS), 366

**Aplasia**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433

**Arachidonic acid**
Arachidonic acid derivatives as mediators of asthma (Lewis RA and Robin J-L), 259

**Arrythmogenicity**
Lack of significant arrythmogenicity from chronic theophylline and beta$_2$-adrenergic combination therapy in asthmatic subjects, 12 (Abst.)

**Aspergillosis**
Familial occurrence of allergic bronchopulmonary aspergillosis: probable environmental source (Halwig JM et al), 55

***Aspergillus***
Allergic *Aspergillus* sinusitis (Goldstein MF et al), 515 (Allergy grand rounds)

***Aspergillus fumigatus***
Report of Kaufman et al. on relationship between agar gel double-diffusion and ELISA results for *Aspergillus fumigatus* IgG antibody (Shale DJ and Faux JA), 128 (Correspondence)

**Aspirin**
Hydrocortisone and airflow impairment in aspirin-induced asthma (Szczeklik A et al), 530
Value of oral provocation tests to aspirin and food additives in routine investigation of asthma and chronic urticaria (Genton C et al), 40
Zomepirac sodium (Zomax) hypersensitivity in aspirin-sensitive asthmatics, 10 (Abst.)

**Astemizole**
Astemizole and other $H_1$-antihistaminic drug treatment of asthma (Holgate ST et al), 375

**Asthma**
Acute effects of aerosolized metaproterenol on breathing pattern of patients with symptomatic bronchial asthma (Tobin MJ et al), 166
Albuterol syrup in treatment of asthma (Pierson WE et al), 228
Anti-IgE autoantibody in patients with bronchial asthma, 3 (Abst.)
Arachidonic acid derivatives as mediators of asthma (Lewis RA and Robin J-L), 259
Astemizole and other $H_1$-antihistaminic drug treatment of asthma (Holgate ST et al), 375
Asthma in infants and children: part I (Siegel SC and Rachelefsky GS), 1 (CME article)
Asthma in infants and children—treatment of childhood asthma: part II (Rachelefsky GS and Siegel SC), 409 (CME article)
Bronchodilator effect and pharmacokinetics of theobromine in young patients with asthma (Simons FER et al), 703
Calcium antagonists and asthma (Middleton E Jr), 341
Changes in bronchial hyperreactivity induced by 4 weeks of treatment with antiasthmatic drugs in patients with allergic asthma: comparison between budesonide and terbutaline (Kraan J et al), 628
Clinical, physiologic, and psychologic comparison of treatment by cromolyn or theophylline in childhood asthma (Springer C et al), 64
Comparison of binding of IgE in sera of patients with bakers' asthma to soluble and insoluble wheat-grain proteins (Walsh BJ et al), 23
Controlled trial of real and simulated acupuncture in management of chronic asthma (Tashkin DP et al), 855

Cromolyn sodium in treatment of asthma: coming of age in United States (Bernstein IL), 381
Effect of corticosteroids on monocyte and neutrophil activation in bronchial asthma (Gin W and Kay AB), 675
Effect of dosing schedule on efficacy of beclomethasone diproprionate aerosol in chronic asthma, 11 (Abst.)
Effect of ketotifen on bronchial hyperreactivity in childhood asthma (Graff-Lonnevig V and Hedlin G), 59
Effects of sulfur oxides on nasal and lung function in adolescents with extrinsic asthma (Koenig JQ et al), 813
Elevated leukocyte phosphodiesterase as basis for depressed cyclic adenosine monophosphate responses in Basenji greyhound dog model of asthma (Chan SC et al), 148
Exercise conditioning in children with asthma, 7 (Abst.)
Follow-up of occupational asthma caused by crab and various agents (Hudson P et al), 682
Future pharmacologic agents and maneuvers in asthma therapy (Wasserman SI), 405
Hydrocortisone and airflow impairment in aspirin-induced asthma (Szczeklik A et al), 530
Immediate and short-term effects of corticosteroids on cholinergic hyperreactivity and pulmonary function in subjects with well-controlled asthma (Mattoli S et al), 214
Immunotherapy of asthma (Fink JN), 402
Improving ability of peak expiratory flow rates to predict asthma (Harm DL et al), 688
Inhaled lodoxamide tromethamine in treatment of perennial asthma: double-blind placebo-controlled study (Mann JS et al), 83
Issues in exercise-induced asthma (Anderson SD), 763 (Postgraduate course)
Late response to exercise-induced asthma (Godfrey S), 876; Reply (Bierman CW), 876 (Correspondence)
Mechanisms of glucocorticosteroid action in bronchial asthma (Kaliner M), 321
Mediators, airway responsiveness, and asthma (Hargreave FE et al), 272
Multicenter trial of prophylactic effect of ketotifen, theophylline, and placebo in atopic asthma (Tinkelman DG et al), 487
Natural exposure and serum antibodies to house dust mite of mite-allergic children with asthma in Atlanta (Smith TF et al), 782
Nedocrimil sodium: new drug for management of bronchial asthma, 13 (Abst.)
Oral tartrazine challenge in childhood asthma: effect on bronchial reactivity, 6 (Abst.)
Premenstrual exacerbation of asthma, 17 (Abst.)
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
Prolonged bronchial obstruction after single antigen challenge in ragweed asthma (Wanner A et al), 177
Prospective study of asthma in rural community, 7 (Abst.)
Quantitative assays of pharmacologic aerosols used in studying asthma (Messina MS et al), 605
Role of *Alternaria* and *Penicillium* spores in pathogenesis of asthma (Licorish K et al), 819
Safety of nifedipine in subjects with bronchial asthma and COPD, 18 (Abst.)
Steroid myopathy: incidence and detection in population with asthma (Bowyer SL et al), 234
Theophylline product and dosing interval selection for chronic asthma (Hendeles L and Weinberger M), 285
Treatment decisions of asthma based on paradigm of clinical severity (Bernstein IL), 357
Value of oral provocation tests to aspirin and food additives in routine investigation of asthma and chronic urticaria (Genton C et al), 40
What we do and do not know about mold allergy and asthma (Reed CE), 773

**Atropine sulphate**
Effect of inhaled hexamethonium bromide and atropine sulphate on airway responsiveness to histamine (O'Byrne PM et al), 97
**Autoantibody**
Anti-IgE autoantibody in patients with bronchial asthma, 3 (Abst.)

B

**Barium**
Hypersensitivity reactions after barium enema examination, 1 (Abst.)
**Basophil**
Increased numbers of circulating basophil progenitors in atopic patients (Denburg JA et al), 466
Role of human basophils and mast cells in pathogenesis of allergic diseases (Schleimer RP et al), 369
Separation of human basophils into two fractions with different density and histamine content (Leonard EJ and Skeel A), 556
**Beclomethasone diproprionate**
Effect of dosing schedule on efficacy of beclomethasone diproprionate aerosol in chronic asthma, 11 (Abst.)
**Beta$_2$-adrenergic**
Lack of significant arrythmogenicity from chronic theophylline and beta$_2$-adrenergic combination therapy in asthmatic subjects, 12 (Abst.)
**Bioassay**
Brief report: evaluation of polymerized ragweed extracts by intradermal end point titration, RAST inhibition, and parallel line bioassay (Grammer LC et al), 123 (Brief communication)
**Blood**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433
Elevated umbilical cord blood leukocyte cyclic adenosine monophosphate-phosphodiesterase activity in children with atopic parents, 5 (Abst.)
Natural killer cell activity of peripheral blood and bone marrow mononuclear cells from patients with childhood acute lymphoblastic leukemia, 16 (Abst.)
**Bone**
Natural killer cell activity of peripheral blood and bone marrow mononuclear cells from patients with childhood acute lymphoblastic leukemia, 16 (Abst.)
**Bract**
Skin testing with aqueous extract of cotton bract (Schachter EN et al), 481
**Bronchial asthma**
Acute effects of aerosolized metaproterenol on breathing pattern of patients with symptomatic bronchial asthma (Tobin MJ et al), 166
Anti-IgE autoantibody in patients with bronchial asthma, 3 (Abst.)
Effect of corticosteroids on monocyte and neutrophil activation in bronchial asthma (Gin W and Kay AB), 675
Mechanisms of glucocorticosteroid action in bronchial asthma (Kaliner M), 321
Nedocrimil sodium: new drug for management of bronchial asthma, 13 (Abst.)
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
Safety of nifedipine in subjects with bronchial asthma and COPD, 18 (Abst.)
**Bronchial hyperreactivity**
Changes in bronchial hyperreactivity induced by 4 weeks of treatment with antiasthmatic drugs in patients with allergic asthma: comparison between budesonide and terbutaline (Kraan J et al), 628

Effect of ketotifen on bronchial hyperreactivity in childhood asthma (Graff-Lonnevig V and Hedlin G), 59

**Bronchial obstruction**
Prolonged bronchial obstruction after single antigen challenge in ragweed asthma (Wanner A et al), 177

**Bronchial reactivity**
Effect of inhaled nifedipine on bronchial reactivity to histamine in man (Cuss FM and Barnes PJ), 718
Oral tartrazine challenge in childhood asthma: effect on bronchial reactivity, 6 (Abst.)

**Bronchoalveolar**
Summary and recommendations of workshop on investigative use of fiberoptic bronchoscopy and bronchoalveolar lavage in individuals with asthma (Workshop committee), 145 (National Institutes of Health workshop summary)

**Bronchoconstriction**
Cigarette smoke–induced bronchoconstriction in dogs: vagal and extravagal mechanisms, 12 (Abst.)
Clemastine and ketotifen in allergen-induced bronchoconstriction: is current evidence conflicting? (Popa V), 642 (Correspondence)
Effect of theophylline and enprofylline on allergen-induced bronchoconstriction (Pauwels R et al), 583

**Bronchodilators**
Adrenergic bronchodilators: pharmacology and toxicology (Reed CE), 335
Bronchodilator effect and pharmacokinetics of theobromine in young patients with asthma (Simons FER et al), 703

**Bronchopulmonary**
Familial occurrence of allergic bronchopulmonary aspergillosis: probable environmental source (Halwig JM et al), 55

**Bronchoscopy**
Summary and recommendations of workshop on investigative use of fiberoptic bronchoscopy and bronchoalveolar lavage in individuals with asthma (Workshop committee), 145 (National Institutes of Health workshop summary)

**Bronchospastic**
Bronchospastic responses to aerosolized metabisulfite in asthmatic subjects (Saper V), 128 (Correspondence)

**BW755C**
Anti-inflammatory drug (BW755C) inhibits airway hyperresponsiveness induced by ozone in dogs (Fabbri LM et al), 162

C

**Calmodulin**
Cyclosporin A binding to calmodulin: possible site of action on T-lymphocytes, 5 (Abst.)

**Cardiac**
Management of patient with protamine hypersensitivity for cardiac surgery, 9 (Abst.)

**Cat**
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563
Where does cat allergen 1 come from? (Bartholomé K et al), 503

**Catabolism**
Alveolar macrophage catabolism of *Micropolyspora faeni* (Schuyler MR and Schmitt D), 614

**Cells**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433
Effect of anaphylaxis on conjunctival goblet cells (Allansmith MR et al), 200
Heterogeneity of mammalian mast cells differentiated in vivo and in vitro (Katz HR et al), 250
Heterogeneity of metachromatic cells in human nose: significance of mucosal mast cells (Otsuka H et al), 695
In situ degranulation of human nasal mucosal mast cells: ultrastructural features and cell-cell association (Friedman MM and Kaliner M), 70
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182
Lung T cells in hypersensitivity pneumonitis, 2 (Abst.)
Lung T cells in hypersensitivity pneumonitis, 15 (Abst.)
Natural killer cell activity of peripheral blood and bone marrow mononuclear cells from patients with childhood acute lymphoblastic leukemia, 16 (Abst.)
Prednisone and T cell subpopulations, 13 (Abst.)
Role of human basophils and mast cells in pathogenesis of allergic diseases (Schleimer RP et al), 369

**Chemonucleolysis**
Preoperative chymopapain sensitivity test for chemonucleolysis candidates, 9 (Abst.)
Prospective evaluation of chymopapain sensitivity in patients undergoing chemonucleolysis (Bernstein DI et al), 458

**Chlorpheniramine**
Development of subsensitivity to chlorpheniramine (Taylor RJ et al), 103

**Choline**
Anaphylactic reactions to suxamethonium prevention of mediator release by choline (Vervloet D et al), 222

**Chymopapain**
Evaluation of papain/chymopapain cross allergenicity (Sagona MA et al), 776
Preoperative chymopapain sensitivity test for chemonucleolysis candidates, 9 (Abst.)
Prospective evaluation of chymopapain sensitivity in patients undergoing chemonucleolysis (Bernstein DI et al), 458

**Cigarette**
Cigarette smoke–induced bronchoconstriction in dogs: vagal and extravagal mechanisms, 12 (Abst.)

**C1-inhibitor**
Acquired C1-inhibitor deficiency associated with anti-idiotypic antibody to monoclonal immunoglobulins, 11 (Abst.)

**Clemastine**
Clemastine and ketotifen in allergen-induced bronchoconstriction: is current evidence conflicting? (Popa V), 642 (Correspondence)
Effect of ranitidine, alone and in combination with clemastine, on allergen-induced cutaneous wheal-and-flare reactions in human skin (Meyrick Thomas RH et al), 864

**Cobalt**
HLA A, B, C, and DR antigens in individuals with sensitivity to cobalt, 15 (Abst.)

**Colchicine**
Urticarial vasculitis treated with colchicine, 14 (Abst.)

**Conjunctivitis**
Complement proteins and C3 anaphylatoxin in tears of patients with conjunctivitis (Ballow M et al), 473
Cromolyn sodium in seasonal allergic conjunctivitis (Kray KT et al), 623

**COPD**
Safety of nifedipine in subjects with bronchial asthma and COPD, 18 (Abst.)

**Coriander**
Immunoglobulin E antibodies against coriander and other spices (van Toorenenbergen AW and Dieges PH), 477

**Corticosteroids**
Effect of corticosteroids on monocyte and neutrophil activation in bronchial asthma (Gin W and Kay AB), 675
Immediate and short-term effects of corticosteroids on cholinergic hyperreactivity and pulmonary function in subjects with well-controlled asthma (Mattoli S et al), 214
Inhaled corticosteroid therapy: substitute for theophylline as well as prednisolone? (Clark TJH), 330
Overview of corticosteroid therapy (Siegel SC), 312

**Cotton**
Skin testing with aqueous extract of cotton bract (Schachter EN et al), 481

**Cromolyn**
Clinical, physiologic, and psychologic comparison of treatment by cromolyn or theophylline in childhood asthma (Springer C et al), 64
Cromolyn sodium in seasonal allergic conjunctivitis (Kray KT et al), 623
Cromolyn sodium in treatment of asthma: coming of age in United States (Bernstein IL), 381
**Crustacea**
Hypersensitivity reactions to ingested crustacea: clinical evaluation and diagnostic studies in shrimp-sensitive individuals (Waring NP et al), 440
**Cyclophosphamide**
Hypersensitivity reaction to metabolite of cyclophosphamide (Kim HC et al), 591
**Cyclosporin A**
Cyclosporin A binding to calmodulin: possible site of action on T-lymphocytes, 5 (Abst.)
**Cytochemistry**
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182

D

**Degranulation**
In situ degranulation of human nasal mucosal mast cells: ultrastructural features and cell-cell association (Friedman MM and Kaliner M), 70
**Dermatitis**
Ocular complications of atopic dermatitis, 9 (Abst.)
***Dermatophagoides pteronyssinus***
Immunotherapy with standardized *Dermatophagoides pteronyssinus* extract. I. In vivo and in vitro parameters after short course of treatment (Bousquet J et al), 734
Purification and partial characterization of two major allergens from house dust mite *Dermatophagoides pteronyssinus* (Lind P), 753
**Dialysis**
Characterization of antigen in acute anaphylactic dialysis reactions: ethylene oxide–altered human serum albumin (Grammer LC et al), 670
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511
**Dust**
Altered interleukin-2 (IL-2) production and responsiveness after hyposensitization to house dust (Hsieh K-H), 188
House dust mite allergies in military personnel, 6 (Abst.)
Purification and partial characterization of two major allergens from house dust mite *Dermatophagoides pteronyssinus* (Lind P), 753
Sensitization to house dust mites in different climatic areas (Murray AB et al), 108

E

**Eicosanoids**
New perspectives on putative role of eicosanoids in airway hyperresponsiveness (Robinson C and Holgate ST), 140 (Editorial)
**ELISA**
Report of Kaufman et al. on relationship between agar gel double-diffusion and ELISA results for *Aspergillus fumigatus* IgG antibody (Shale DJ and Faux JA), 128 (Correspondence)
**Embolism**
Amniotic fluid activates complement: role in amniotic fluid embolism syndrome? 4 (Abst.)
**Enema**
Hypersensitivity reactions after barium enema examination, 1 (Abst.)
**Enprofylline**
Effect of theophylline and enprofylline on allergen-induced bronchoconstriction (Pauwels R et al), 583
**Enzyme**
Underestimation of specific immunoglobulin E by microtiter plate enzyme-linked immunosorbent assays (Reid MJ et al), 172
**Eosinophil**
Eosinophil- and eosinophil granule–mediated pneumocyte injury (Ayars GH et al), 595
**Epitope**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433
**Erratum**
Correction of authors of article by Pearson and Dulek entitled "Reactivity of IgE and IgG serum levels to Chymopapain after Chemonucleolysis," 802
**Ethylene oxide**
Characterization of antigen in acute anaphylactic dialysis reactions: ethylene oxide–altered human serum albumin (Grammer LC et al), 670
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511
**Eustachian**
Effects of intranasal histamine challenge on eustachian tube function (Doyle WJ et al), 551
Eustachian tube obstruction and allergy: role in otitis media with effusion? (Fireman P), 137 (Editorial)
Induction of eustachian tube dysfunction with histamine nasal provocation (Walker SB et al), 158
**Exercise**
Exercise conditioning in children with asthma, 7 (Abst.)
**Expiratory**
Improving ability of peak expiratory flow rates to predict asthma (Harm DL et al), 688
**Extract**
Approval by Food and Drug Administration of polymerized ragweed extract for treatment of ragweed-sensitive individuals (Patterson R), 525 (Correspondence)
Brief report: evaluation of polymerized ragweed extracts by intradermal end point titration, RAST inhibition, and parallel line bioassay (Grammer LC et al), 123 (Brief communication)
Immunotherapy with standardized *Dermatophagoides pteronyssinus* extract. I. In vivo and in vitro parameters after short course of treatment (Bousquet J et al), 734
Investigation of possible immunologic reactions to human serum albumin used as stabilizer in allergy extracts (Brown JS et al), 808
Skin testing with an aqueous extract of cotton bract (Schachter EN et al), 481
Stabilizing effect of epsilon-aminocaproic acid on allergenic extracts (Van Hoeyveld EM and Stevens EAM), 543
Suppression of late-phase skin reactions by immunotherapy with ragweed extract (Pienkowski MM et al), 729

F

**Fever**
Hyperimmunoglobulinaemia D and periodic fever: new syndrome, 19 (Abst.)
**Fiberoptic**
Summary and recommendations of workshop on investigative use of fiberoptic bronchoscopy and bronchoalveolar lavage in individuals with asthma (Workshop committee), 145 (National Institutes of Health workshop summary)
**Fly *(Musca domestica)***
Occupational allergy to common house fly *(Musca domestica)*: use of immunologic response to identify atmospheric allergen (Tee RD et al), 826

**Food**
Value of oral provocation tests to aspirin and food additives in routine investigation of asthma and chronic urticaria (Genton C et al), 40
**Formaldehyde**
Clinical evaluation of patients with complaints related to formaldehyde exposure (Imbus HR), 831

G

**Glands**
Molecular forms of tear IgA and distribution of IgA subclasses in human lacrimal glands (Allansmith MR et al), 569
**Glucocorticosteroid**
Mechanisms of glucocorticosteroid action in bronchial asthma (Kaliner M), 321
**Grasses**
Cross allergenicity among grasses determined by tissue threshold changes (Leavengood DC et al), 789

H

**Heart**
Myosin: link between streptococci and heart, 8 (Abst.)
***Helix pomatia***
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
**Hemocyanin**
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
**Hepatitis B**
Congenital X-linked hypogammaglobulinemia and asymptomatic hepatitis B antigen carrier state (Wray BB et al), 507
**Heterogeneity**
Heterogeneity of mammalian mast cells differentiated in vivo and in vitro (Katz HR et al), 250
Heterogeneity of metachromatic cells in human nose: significance of mucosal mast cells (Otsuka H et al), 695
**Hexamethonium bromide**
Effect of inhaled hexamethonium bromide and atropine sulphate on airway responsiveness to histamine (O'Byrne PM et al), 97
**Histamine**
Effect of histamine receptor antagonists on specific and nonspecific suppression of experimental contact sensitivity (Mekori YA et al), 90
Effect of inhaled hexamethonium bromide and atropine sulphate on airway responsiveness to histamine (O'Byrne PM et al), 97
Effect of inhaled nifedipine on bronchial reactivity to histamine in man (Cuss FM and Barnes PJ), 718
Effects of intranasal histamine challenge on eustachian tube function (Doyle WJ et al), 551
Induction of eustachian tube dysfunction with histamine nasal provocation (Walker SB et al), 158
Separation of human basophils into two fractions with different density and histamine content (Leonard EJ and Skeel A), 556
**Human**
Molecular forms of tear IgA and distribution of IgA subclasses in human lacrimal glands (Allansmith MR et al), 569
Separation of human basophils into two fractions with different density and histamine content (Leonard EJ and Skeel A), 556
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537
**Hydrocortisone**
Hydrocortisone and airflow impairment in aspirin-induced asthma (Szczeklik A et al), 530
**Hyperimmunoglobulinaemia D**
Hyperimmunoglobulinaemia D and periodic fever: new syndrome, 19 (Abst.)
**Hyperreactivity**
Changes in bronchial hyperreactivity induced by 4 weeks of treatment with antiasthmatic drugs in patients with allergic asthma: comparison between budesonide and terbutaline (Kraan J et al), 628
Cholinergic nasal hyperreactivity in atopic subjects (Druce HM et al), 445
Effect of ketotifen on bronchial hyperreactivity in childhood asthma (Graff-Lonnevig V and Hedlin G), 59
Immediate and short-term effects of corticosteroids on cholinergic hyperreactivity and pulmonary function in subjects with well-controlled asthma (Mattoli S et al), 214
**Hyperresponsiveness**
Anti-inflammatory drug (BW755C) inhibits airway hyperresponsiveness induced by ozone in dogs (Fabbri LM et al), 162
New perspectives on putative role of eicosanoids in airway hyperresponsiveness (Robinson C and Holgate ST), 140 (Editorial)
**Hypersensitivity**
Hypersensitivity reactions after barium enema examination, 1 (Abst.)
Hypersensitivity reactions to ingested crustacea: clinical evaluation and diagnostic studies in shrimp-sensitive individuals (Waring NP et al), 440
Hypersensitivity reaction to metabolite of cyclophosphamide (Kim HC et al), 591
Lung T cells in hypersensitivity pneumonitis, 2 (Abst.)
Lung T cells in hypersensitivity pneumonitis, 15 (Abst.)
Management of patient with protamine hypersensitivity for cardiac surgery, 9 (Abst.)
Zomepirac sodium (Zomax) hypersensitivity in aspirin-sensitive asthmatic, 10 (Abst.)
**Hypertransfusion**
Persistent lymphadenopathy associated with hypertransfusion in sickle-cell disease (Morgan J et al), 869
**Hypogammaglobulinemia**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433
Congenital X-linked hypogammaglobulinemia and asymptomatic hepatitis B antigen carrier state (Wray BB et al), 507
**Hyposensitization**
Altered interleukin-2 (IL-2) production and responsiveness after hyposensitization to house dust (Hsieh K-H), 188

I

**IgA**
Molecular forms of tear IgA and distribution of IgA subclasses in human lacrimal glands (Allansmith MR et al), 569
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
**IgE**
Anti-IgE autoantibody in patients with bronchial asthma, 3 (Abst.)
Changes in plasma IgE levels during complicated and uncomplicated measles virus infections (Griffin DE et al), 206
Comparison of binding of IgE in sera of patients with bakers' asthma to soluble and insoluble wheat-grain proteins (Walsh BJ et al), 23
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46

Population differences in cutaneous methacholine reactivity and circulating IgE concentrations (Buckley CE III et al), 847
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537

**IgG**
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29
Report of Kaufman et al. on relationship between agar gel double-diffusion and ELISA results for *Aspergillus fumigatus* IgG antibody (Shale DJ and Faux JA), 128 (Correspondence)
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537

**IgM**
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29

**Immunoblot**
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537

**Immunoblotting**
Immunoblotting and related techniques (Flanagan TD), 527 (Editorial)

**Immunochemical**
Immunochemical approach to indoor aeroallergen quantitation with new volumetric air sampler: studies with mite, roach, cat, mouse, and guinea pig antigens (Swanson MC et al), 724

**Immunogenicity**
Allergenicity, immunogenicity, and safety of immunotherapy with various molecular weight ranges of polymerized ragweed (Grammer LC et al), 195

**Immunoglobulins**
Acquired C1-inhibitor deficiency associated with anti-idiotypic antibody to monoclonal immunoglobulins, 11 (Abst.)
Immunoglobulin E antibodies against coriander and other spices (van Toorenenbergen AW and Dieges PH), 477
Underestimation of specific immunoglobulin E by microtiter plate enzyme-linked immunosorbent assays (Reid MJ et al), 172

**Immunosuppression**
Reversal of postburn immunosuppression by administration of vitamin A, 1 (Abst.)

**Immunotherapy**
Allergenicity, immunogenicity, and safety of immunotherapy with various molecular weight ranges of polymerized ragweed (Grammer LC et al), 195
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46
Immunotherapy of asthma (Fink JN), 402
Immunotherapy: parameters of assessment (Patterson R et al), 394
Immunotherapy with standardized *Dermatophagoides pteronyssinus* extract. I. In vivo and in vitro parameters after short course of treatment (Bousquet J et al), 734
Modified forms of allergen immunotherapy (Grammer LC et al), 397
Serum sickness triggered by anaphylaxis; complication of immunotherapy (Umetsu DT et al), 713
Suppression of late-phase skin reactions by immunotherapy with ragweed extract (Pienkowski MM et al), 729

**Insect**
Venom skin tests in insect-allergic and insect-nonallergic populations (Georgitis JW and Reisman RE), 803

**Inspiratory**
Effect of inspiratory flow rate regulation on nebulizer output and on human airway response to methacholine aerosol (Laube BL et al), 708

**Interferon**
Interferon production in children with respiratory diseases, 4 (Abst.)

**Interleukin**
Increased plasma interleukin-1 activity in women after ovulation, 2 (Abst.)
Altered interleukin-2 (IL-2) production and responsiveness after hyposensitization to house dust (Hsieh K-H), 188

**Intestinal**
Transport abnormalities during intestinal anaphylaxis in rat: effect of antiallergic agents (Perdue MH and Gall DG), 498

**Ipratropium**
Determination of dose-response relationship for nebulized ipratropium in asthmatic children, 4 (Abst.)

**K**

**Keratinocytes**
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182

**Ketotifen**
Clemastine and ketotifen in allergen-induced bronchoconstriction: is current evidence conflicting? (Popa V), 642 (Correspondence)
Effect of ketotifen on bronchial hyperreactivity in childhood asthma (Graff-Lonnevig V and Hedlin G), 59
Immunologic and therapeutic aspects of ketotifen (Craps LP), 389
Multicenter trial of prophylactic effect of ketotifen, theophylline, and placebo in atopic asthma (Tinkelman DG et al), 487

**Kinetic**
Primary immune response in bronchial asthma. 1. Kinetic study of *Helix pomatia* hemocyanin-specific IgE, IgG, IgA, and IgM antibody responses in patients with asthma and in matched controls (Weller FR et al), 29

**L**

**Lavage**
Summary and recommendations of workshop on investigative use of fiberoptic bronchoscopy and bronchoalveolar lavage in individuals with asthma (Workshop committee), 145 (National Institutes of Health workshop summary)

**Leukemia**
Natural killer cell activity of peripheral blood and bone marrow mononuclear cells from patients with childhood acute lymphoblastic leukemia, 16 (Abst.)

**Leukocyte**
Elevated leukocyte phosphodiesterase as basis for depressed cyclic adenosine monophosphate responses in Basenji greyhound dog model of asthma (Chan SC et al), 148
Elevated umbilical cord blood leukocyte cyclic adenosine monophosphate-phosphodiesterase activity in children with atopic parents, 5 (Abst.)

**Lodoxamide tromethamine**
Inhaled lodoxamide tromethamine in treatment of perennial asthma: double-blind placebo-controlled study (Mann JS et al), 83

**Lung**
Effects of sulfur oxides on nasal and lung function in adolescents with extrinsic asthma (Koenig JQ et al), 813

Lung T cells in hypersensitivity pneumonitis, 2 (Abst.)
Lung T cells in hypersensitivity pneumonitis, 15 (Abst.)

**Lymphadenopathy**
Angioimmunoblastic lymphadenopathy in child with unusual clinical and immunologic features (Chodirker WB and Komar RR), 745
Persistent lymphadenopathy associated with hypertransfusion in sickle-cell disease (Morgan J et al), 869

**Lymphoblastic**
Natural killer cell activity of peripheral blood and bone marrow mononuclear cells from patients with childhood acute lymphoblastic leukemia, 16 (Abst.)

M

**Macrophage**
Alveolar macrophage catabolism of *Micropolyspora faeni* (Schuyler MR and Schmitt D), 614

**Mast**
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182

**Mastocytosis**
Failure of sulfites to produce clinical responses in patients with systemic mastocytosis or recurrent anaphylaxis: results of single-blind study (Meggs WJ et al), 840

**Measles**
Changes in plasma IgE levels during complicated and uncomplicated measles virus infections (Griffin DE et al), 206

**Mediator**
Anaphylactic reactions to suxamethonium prevention of mediator release by choline (Vervloet D et al), 222
Mediators, airway responsiveness, and asthma (Hargreave FE et al), 272
Mediator release in local heat urticaria: protection with combined $H_1$ and $H_2$ antagonists (Irwin RB et al), 35

**Meeting**
Where should we hold the yearly meeting? (Diamond MA), 246 (Correspondence)

**Metabisulfite**
Bronchospastic responses to aerosolized metabisulfite in asthmatic subjects (Saper V), 128 (Correspondence)

**Metabolism**
Pulmonary synthesis, release, and metabolism of prostaglandins (Robinson C et al), 265

**Metaproterenol**
Acute effects of aerosolized metaproterenol on breathing pattern of patients with symptomatic bronchial asthma (Tobin MJ et al), 166

**Methacholine**
Effect of age on methacholine response (Hopp RJ et al), 609
Effect of inspiratory flow rate regulation on nebulizer output and on human airway response to methacholine aerosol (Laube BL et al), 708
Population differences in cutaneous methacholine reactivity and circulating IgE concentrations (Buckley CE III et al), 847

**Mezlocillin**
Lack of cross allergenicity between mezlocillin and other semisynthetic penicillins, 20 (Abst.)

***Micropolyspora faeni***
Alveolar macrophage catabolism of *Micropolyspora faeni* (Schuyler MR and Schmitt D), 614

**Mite**
House dust mite allergies in military personnel, 6 (Abst.)
Natural exposure and serum antibodies to house dust mite of mite-allergic children with asthma in Atlanta (Smith TF et al), 782
Purification and partial characterization of two major allergens from house dust mite *Dermatophagoides pteronyssinus* (Lind P), 753
Sensitization of house dust mites in different climatic areas (Murray AB et al), 108

**Mold**
What we do and do not know about mold allergy and asthma (Reed CE), 773 (Editorial)

**Monoclonal**
Acquired C1-inhibitor deficiency associated with anti-idiotypic antibody to monoclonal immunoglobulins, 11 (Abst.)

**Monocyte**
Effect of corticosteroids on monocyte and neutrophil activation in bronchial asthma (Gin W and Kay AB), 675

**Mucosal**
In situ degranulation of human nasal mucosal mast cells: ultrastructural features and cell-cell association (Friedman MM and Kaliner M), 70

**Myopathy**
Steroid myopathy (Ellis EF), 431 (Editorial)
Steroid myopathy: incidence and detection in population with asthma (Bowyer SL et al), 234

**Myosin**
Myosin: link between streptococci and heart, 8 (Abst.)

N

**Nebulizer**
Effect of inspiratory flow rate regulation on nebulizer output and on human airway response to methacholine aerosol (Laube BL et al), 708

**Nedocromil sodium**
Nedocromil sodium: new drug for management of bronchial asthma, 13 (Abst.)

**Neutrophil**
Effect of corticosteroids on monocyte and neutrophil activation in bronchial asthma (Gin W and Kay AB), 675

**Nifedipine**
Effect of inhaled nifedipine on bronchial reactivity to histamine in man (Cuss FM and Barnes PJ), 718
Safety of nifedipine in subjects with bronchial asthma and COPD, 18 (Abst.)

**Nose**
Cholinergic nasal hyperreactivity in atopic subjects (Druce HM et al), 445
Effects of sulfur oxides on nasal and lung function in adolescents with extrinsic asthma (Koenig JQ et al), 813
Heterogeneity of metachromatic cells in human nose: significance of mucosal mast cells (Otsuka H et al), 695
In situ degranulation of human nasal mucosal mast cells: ultrastructural features and cell-cell association (Friedman MM and Kaliner M), 70
Induction of eustachian tube dysfunction with histamine nasal provocation (Walker SB et al), 158

O

**Ocular**
Ocular complications of atopic dermatitis, 9 (Abst.)

**OKT4**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433

**Otitis**
Eustachian tube obstruction and allergy: role in otitis media with effusion? (Fireman P), 137 (Editorial)

**Ovulation**
Increased plasma interleukin-1 activity in women after ovulation, 2 (Abst.)

**Ozone**
Anti-inflammatory drug (BW755C) inhibits airway hyperresponsiveness induced by ozone in dogs (Fabbri LM et al), 162

P

**Palladium**
Diversity of reaginic immune responses to platinum and palladium metallic salts (Biagini RE et al), 794
**Papain**
Evaluation of papain/chymopapain cross allergenicity (Sagona MA et al), 776
**Pathogenesis**
Late-phase reactions: observations on pathogenesis and prevention (Larsen GL), 665 (Editorial)
Role of human basophils and mast cells in pathogenesis of allergic diseases (Schleimer RP et al), 369
**Pelt**
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563
**Penicillins**
Lack of cross allergenicity between mezlocillin and other semisynthetic penicillins, 20 (Abst.)
Penicillin allergy and desensitization in serious infections during pregnancy, 16 (Abst.)
***Penicillium***
Role of *Alternaria* and *Penicillium* spores in pathogenesis of asthma (Licorish K et al), 819
**Pharmacokinetics**
Bronchodilator effect and pharmacokinetics of theobromine in young patients with asthma (Simons FER et al), 703
**Phosphodiesterase**
Elevated leukocyte phosphodiesterase as basis for depressed cyclic adenosine monophosphate responses in Basenji greyhound dog model of asthma (Chan SC et al), 148
Elevated umbilical cord blood leukocyte cyclic adenosine monophosphate-phosphodiesterase activity in children with atopic parents, 5 (Abst.)
**Placebo**
Inhaled lodoxamide tromethamine in the treatment of perennial asthma: double-blind placebo-controlled study (Mann JS et al), 83
Multicenter trial of prophylactic effect of ketotifen, theophylline, and placebo in atopic asthma (Tinkelman DG et al), 487
**Plasma**
Changes in plasma IgE levels during complicated and uncomplicated measles virus infections (Griffin DE et al), 206
Increased plasma interleukin-1 activity in women after ovulation, 2 (Abst.)
**Platinum**
Diversity of reaginic immune responses to platinum and palladium metallic salts (Biagini RE et al), 794
**Pneumocyte**
Eosinophil- and eosinophil granule–mediated pneumocyte injury (Ayars GH et al), 595
**Pneumonitis**
Lung T cells in hypersensitivity pneumonitis, 2 (Abst.)
Lung T cells in hypersensitivity pneumonitis, 15 (Abst.)
**Postburn**
Reversal of postburn immunosuppression by administration of vitamin A, 1 (Abst.)
**Prednisolone**
Inhaled corticosteroid therapy: substitute for theophylline as well as prednisolone? (Clark TJH), 330
**Prednisone**
Prednisone and T cell subpopulations, 13 (Abst.)
**Pregnancy**
Penicillin allergy and desensitization in serious infections during pregnancy, 16 (Abst.)
**Presidents**
Listing of presidents of societies, 637
**Progenitors**
Increased numbers of circulating basophil progenitors in atopic patients (Denburg JA et al), 466
**Progesterone**
Progesterone sensitivity as cause of recurrent anaphylaxis, 14 (Abst.)
**Prostaglandins**
Pulmonary synthesis, release, and metabolism of prostaglandins (Robinson C et al), 265
**Protamine**
Management of patient with protamine hypersensitivity for cardiac surgery, 9 (Abst.)
**Proteins**
Comparison of binding of IgE in sera of patients with bakers' asthma to soluble and insoluble wheat-grain proteins (Walsh BJ et al), 23
Complement proteins and C3 anaphylatoxin in tears of patients with conjunctivitis (Ballow M et al), 473
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537
***Ptychodiscus brevis***
Mechanism of *Ptychodiscus brevis* toxin–induced rat vas deferens contraction (Sakamoto Y et al), 117
**Pulmonary function**
Immediate and short-term effects of corticosteroids on cholinergic hyperreactivity and pulmonary function in subjects with well-controlled asthma (Mattoli S et al), 214
**Pulmonary synthesis**
Pulmonary synthesis, release, and metabolism of prostaglandins (Robinson C et al), 265

R

**Ragweed**
Allergenicity, immunogenicity, and safety of immunotherapy with various molecular weight ranges of polymerized ragweed (Grammer LC et al), 195
Approval by Food and Drug Administration of polymerized ragweed extract for treatment of ragweed-sensitive individuals (Patterson R), 525 (Correspondence)
Brief report: evaluation of polymerized ragweed extracts by intradermal end point titration, RAST inhibition, and parallel line bioassay (Grammer LC et al), 123 (Brief communication)
Prolonged bronchial obstruction after single antigen challenge in ragweed asthma (Wanner A et al), 177
Suppression of late-phase skin reactions by immunotherapy with ragweed extract (Pienkowski MM et al), 729
**Ranitidine**
Effect of ranitidine, alone and in combination with clemastine, on allergen-induced cutaneous wheal-and-flare reactions in human skin (Meyrick Thomas BH et al), 864
**RAST**
Brief report: evaluation of polymerized ragweed extracts by intradermal end point titration, RAST inhibition, and parallel line bioassay (Grammer LC et al), 123 (Brief communication)
**Receptors**
Adrenergic receptors: possible mechanism of inverse regulation of α- and β-receptors (Kunos G et al), 346
**Respiratory diseases**
Interferon production in children with respiratory diseases, 4 (Abst.)
**Reviewers**
**Acknowledgment to reviewers, 877**
**Rhinomanometry**
Comparison of sequential anterior and posterior rhinomanometry (Dvoracek JE et al), 577

S

**Saliva**
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563
**Salts**
Diversity of reaginic immune responses to platinum and palladium metallic salts (Biagini RE et al), 794

**Sensitivity**
Effect of histamine receptor antagonists on specific and nonspecific suppression of experimental contact sensitivity (Mekori YA et al), 90
HLA A, B, C, and DR antigens in individuals with sensitivity to cobalt, 15 (Abst.)
Preoperative chymopapain sensitivity test for chemonucleolysis candidates, 9 (Abst.)
Prospective evaluation of chymopapain sensitivity in patients undergoing chemonucleolysis (Bernstein DI et al), 458
**Sensitization**
Sensitization to house dust mites in different climatic areas (Murray AB et al), 108
**Sepsis**
Walk-in anergic patient: how best to assess risk of sepsis following elective surgery, 8 (Abst.)
**Serum**
Characterization of antigen in acute anaphylactic dialysis reactions: ethylene oxide–altered human serum albumin (Grammer LC et al), 670
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563
Comparison of binding of IgE in sera of patients with bakers' asthma to soluble and insoluble wheat-grain proteins (Walsh BJ et al), 23
IgE against ethylene oxide–altered human serum albumin in patients with anaphylactic reactions to dialysis (Grammer LC et al), 511
Investigation of possible immunologic reactions to human serum albumin used as stabilizer in allergy extracts (Brown JS et al), 808
Serum sickness triggered by anaphylaxis: complication of immunotherapy (Umetsu DT et al), 713
**Sickle-cell**
Persistent lymphadenopathy associated with hypertransfusion in sickle-cell disease (Morgan J et al), 869
**Silk**
Use of immunoblot technique for detection of human IgE and IgG antibodies to individual silk proteins (Dewair M et al), 537
**Sinusitis**
Allergic *Aspergillus* sinusitis (Goldstein MF et al), 515 (Allergy grand rounds)
**Skin**
Contamination of intradermal skin test syringes (Shulan DJ et al), 226
Effect of ranitidine, alone and in combination with clemastine, on allergen-induced cutaneous wheal-and-flare reactions in human skin (Meyrick Thomas RH et al), 864
Skin test suppression by antihistamines and development of subsensitivity (Long WF et al), 113
Skin testing with aqueous extract of cotton bract (Schachter EN et al), 481
Suppression of late-phase skin reactions by immunotherapy with ragweed extract (Pienkowski MM et al), 729
Venom skin tests in insect-allergic and insect-nonallergic populations (Georgitis JW and Reisman RE), 803
**Smoke**
Cigarette smoke–induced bronchoconstriction in dogs: vagal and extravagal mechanisms, 12 (Abst.)
**Soybean**
Soybean oil is not allergenic to soybean-sensitive individuals (Bush RK et al), 242
**Spices**
Delayed-type allergy to spices, 20 (Abst.)
Immunoglobulin E antibodies against coriander and other spices (van Toorenenbergen AW and Dieges PH), 477
**Spores**
Role of *Alternaria* and *Penicillium* spores in pathogenesis of asthma (Licorish K et al), 819
**Steroid**
Steroid myopathy (Ellis EF), 431 (Editorial)
**Streptococci**
Myosin: link between streptococci and heart, 8 (Abst.)
**Streptokinase**
Allergic reactions to streptokinase consistent with anaphylactic or antigen-antibody complex-mediated damage (McGrath KG et al), 453
**Subsensitivity**
Development of subsensitivity to chlorpheniramine (Taylor RJ et al), 103
Skin test suppression by antihistamines and development of subsensitivity (Long WF et al), 113
**Sulfate**
Airway reactivity to sulfate and sulfuric acid aerosols in normal and asthmatic subjects, 19 (Abst.)
**Sulfites**
Failure of sulfites to produce clinical responses in patients with systemic mastocytosis or recurrent anaphylaxis: results of single-blind study (Meggs WJ et al), 840
**Sulfur oxides**
Effects of sulfur oxides on nasal and lung function in adolescents with extrinsic asthma (Koenig JQ et al), 813
**Sulfuric acid**
Airway reactivity to sulfate and sulfuric acid aerosols in normal and asthmatic subjects, 19 (Abst.)
**Suxamethonium**
Anaphylactic reactions to suxamethonium prevention of mediator release by choline (Vervloet D et al), 222
**Syringes**
Contamination of intradermal skin test syringes (Shulan DJ et al), 226

T

**Tartrazine**
Oral tartrazine challenge in childhood asthma: effect on bronchial reactivity, 6 (Abst.)
**T cells**
Lung T cells in hypersensitivity pneumonitis, 2 (Abst.)
**Tears**
Complement proteins and C3 anaphylatoxin in tears of patients with conjunctivitis (Ballow M et al), 473
Molecular forms of tear IgA and distribution of IgA subclasses in human lacrimal glands (Allansmith MR et al), 569
**Test**
Contamination of intradermal skin test syringes (Shulan DJ et al), 226
Preoperative chymopapain sensitivity test for chemonucleolysis candidates, 9 (Abst.)
Skin test suppression by antihistamines and development of subsensitivity (Long WF et al), 113
Value of oral provocation tests to aspirin and food additives in routine investigation of asthma and chronic urticaria (Genton C et al), 40
Venom skin tests in insect-allergic and insect-nonallergic populations (Georgitis JW and Reisman RE), 803
Skin testing with aqueous extract of cotton bract (Schachter EN et al), 481
**Theobromine**
Bronchodilator effect and pharmacokinetics of theobromine in young patients with asthma (Simons FER et al), 703
**Theophylline**
Advantages and disadvantages of 24-hour theophylline (Spector SL), 302
Clinical pharmacodynamics of theophylline (Peck CC et al), 292
Clinical, physiologic, and psychologic comparison of treatment by cromolyn or theophylline in childhood asthma (Springer C et al), 64
Effect of theophylline and enprofylline on allergen-induced bronchoconstriction (Pauwels R et al), 583

Inhaled corticosteroid therapy: substitute for theophylline as well as prednisolone? (Clark TJH), 330
Lack of significant arrythmogenicity from chronic theophylline and beta$_2$-adrenergic combination therapy in asthmatic subjects, 12 (Abst.)
Multicenter trial of prophylactic effect of ketotifen, theophylline, and placebo in atopic asthma (Tinkelman DG et al), 487
Theophylline product and dosing interval selection for chronic asthma (Hendeles L and Weinberger M), 285
Theophylline toxicity (Ellis EF), 297
Theophylline use: overview (Weinberger M and Hendeles L), 277

**Therapy**
Future pharmacologic agents and maneuvers in asthma therapy (Wasserman SI), 405
Inhaled corticosteroid therapy: substitute for theophylline as well as prednisolone? (Clark TJH), 330
Overview of corticosteroid therapy (Siegel SC), 312

**Thymoma**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433

**Thymus**
Absence of OKT4 epitope on blood T cells and thymus cells in patient with thymoma, hypogammaglobulinemia, and red blood cell aplasia (Levinson AI et al), 433

**Tissue**
Cross allergenicity among grasses determined by tissue threshold changes (Leavengood DC et al), 789

**Titration**
Brief report: evaluation of polymerized ragweed extracts by intradermal end point titration, RAST inhibition, and parallel line bioassay (Grammer LC et al), 123 (Brief communication)

**T-lymphocytes**
Cyclosporin A binding to calmodulin: possible site of action on T-lymphocytes, 5 (Abst.)

**Toxicity**
Theophylline toxicity (Ellis EF), 297

**Toxin**
Mechanism of *Ptychodiscus brevis* toxin–induced rat vas deferens contraction (Sakamoto Y et al), 117

**Tryptase**
Localization of tryptase to human cutaneous mast cells and keratinocytes by immunofluorescence and immunoperoxidase cytochemistry with monoclonal antitryptase antibody (Schwartz LB et al), 182

U

**Umbilical cord**
Elevated umbilical cord blood leukocyte cyclic adenosine monophosphate-phosphodiesterase activity in children with atopic parents, 5 (Abst.)

**Urine**
Comparative study of allergens of cat urine, serum, saliva, and pelt (Anderson MC et al), 563

**Urticaria**
Allergic urticaria and hereditary angioedema: independent association in same patient, 12 (Abst.)
Mediator release in local heat urticaria: protection with combined $H_1$ and $H_2$ antagonists (Irwin RB et al), 35
Value of oral provocation tests to aspirin and food additives in routine investigation of asthma and chronic urticaria (Genton C et al), 40

V

**vas deferens**
Mechanism of *Ptychodiscus brevis* toxin–induced rat vas deferens contraction (Sakamoto Y et al), 117

**Vasculitis**
Urticarial vasculitis treated with colchicine, 14 (Abst.)

**Venom**
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46
Venom skin tests in insect-allergic and insect-nonallergic populations (Georgitis JW and Reisman RE), 803

**Virus**
Changes in plasma IgE levels during complicated and uncomplicated measles virus infections (Griffin DE et al), 206

**Vitamin A**
Reversal of postburn immunosuppression by administration of vitamin A, 1 (Abst.)

X

**X-linked**
Congenital X-linked hypogammaglobulinemia and asymptomatic hepatitis B antigen carrier state (Wray BB et al), 507

Y

**Yellow jacket**
IgE and IgG subclass antibody response in patients allergic to yellow jacket venom undergoing different regimens of venom immunotherapy (Djurup R et al), 46

Z

**Zomax**
Zomepirac sodium (Zomax) hypersensitivity in aspirin-sensitive asthmatics, 10 (Abst.)

**Zomepirac sodium**
Zomepirac sodium (Zomax) hypersensitivity in aspirin-sensitive asthmatics, 10 (Abst.)
